📅 01/2018 - 01/2019 📍 Karachi, Pakistan

SKILLS

React **Express** **Node.js** **MongoDB**

JavaScript **Bootstrap** **HTML** **CSS**

Django **SQL** **Tailwind**

PROJECTS

Pizzalo

🌐 <https://my-pizza-sooty.vercel.app/>

- Built a responsive pizza ordering app using **React JS** and **Redux** with cart, filters, and protected routes.
- Implemented **add to cart**, quantity update, item removal, and dynamic **total price calculation**.
- Added **filter functionality** and **route protection** for authenticated user access to cart and checkout.

Shopify-X

🌐 <https://shopify-x-web.netlify.app/>

- Developed a stylish clothing store with **React JS** featuring a modern, responsive **UI** and smooth user experience.
- Added **category filters** for Men, Women, and Children to enhance product browsing.
- Implemented **login functionality** and a **cart system** displaying added items with quantity and total price.

Job Portal

🌐 <https://github.com/waqar606/jobwebsite-mern>

- Built a full-stack **Job Portal using MERN stack and ShadCN UI**, supporting separate roles for **students** and **recruiters**.
- Students can **view and apply for jobs**, manage their **profiles**, and **track application status**.
- Recruiters can **create companies and post jobs**, and **manage student applications** by approving or rejecting them.

Course Heaven

🌐 https://github.com/waqar606/Course_App

- Built a full-stack **CourseHeaven platform using MERN stack** with **Stripe integration** for secure online course payments.
- Users can **browse available courses** and **purchase them** directly via **Stripe** checkout.
- Admins can **create, update, and delete courses**, and manage all course content efficiently.
